Kiwanis Club Notes

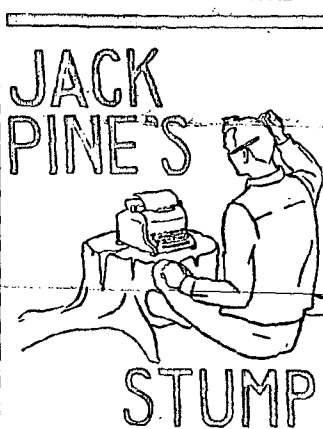

Safety in water heaters was the
theme of a movie brought to the
Kiwanis Club at their regular
Monday night meeting at the
Shoppens Inn by Don Jan-
sen.
The movie, in color, showed
many explosions of water heater
tanks and the terrible destruction
caused by the blasts. It then
showed that the combination of
heat and pressure was the cause
and the safety features of a pres-
sure release valve.

JACK
PINE'S
STUMP

Several weeks ago, while sitting
at the Winter Sports Park, and
while brimming over with the
good will I feel while sitting,
I promised Mrs. Paul Dosch that I
would write something about a
pet project of hers... the local
stump of the Art and Crafts
Guild. But it sort of slipped my
mind until one night I heard a
group of women discussing some
of the projects and possibilities
the Guild has. So I contacted Mrs.
Dosch again and she sent me vol-
unteers of information. But inter-
ested again, and then I read what
she had sent me. Mrs. Dosch is
an officer of the group, and on a
Great Crusade to explain just
what her group is organized to do.
After reading the information as to
what has been done in other
places, I have to admit that I am
now a flag-waving member of her
crusade.

In essence, the group is made
up of men and women who have
some home craft they like to do
and those who have no talent
(they think) and want to take up
some art or craft. Such as paint-
ing, ceramics, leather work, metal
working, weaving, basketry, do-
ing, wood-working, and Heaven
knows what else. And there can
be great profit in this... money
profit as well as mental. Many
widows, widowers, older people,
old people, crippled people, and
ambitious people, not only sup-
plement their income, but in many
cases live completely from what
they do with their skills. The lo-
cal group will be able to give ad-
vice and help on many of these
items made, aid on determining a
fair price. But most important, it
is an organization to guide and
teach the beginners.

This Arts and Crafts Guild is
not other one of these "good
organizations set up to solve the
Problems of Humanity. Rather it
is a hard-hitting group with a
plan to make money and bring
out creative talent. As I under-
stand it, the fundamentals of art,
ceramics, leather craft and other
arts will be taught to interested
parties. I don't have all the details,
but I can give a good example.
My dear friend Minnie Borchers
has many years' experience in the
wooden figures of deer by hand.
These lovely carvings she used to
give away, but now she sells them.
They provide a sort of independence
for her, besides being a
source of personal satisfaction.
There are many others with just
as rare talents who can make
money from what is essentially a
hobby... or fun... such as Mrs.
Glen Fenton who makes about as
beautiful a cake for weddings,
etc., as you have ever seen. From
time to time, I would like to print
the names of people who have un-
usual services to perform, or items
to sell which they have made by
themselves. If any of the readers
of this column have a hobby
which might be constructive or
creative, let Mrs. Dosch know, or
let me know. And if anyone would
like to see other people's work,
something in this line, contact the
Guild. You can help others... and
yourself. But most of all, if you
want to LEARN an art or craft,
call Mrs. Dosch. The Guild is set
up for that purpose... to
teach and help.

Monday was St. Patrick's Day,
and I was good to my Wild Irish
wife all day long... which should
satisfy her for that year.

While on the subject of wives...
Consumers Power is now advertising
that a wife is worth \$20,000 a
year. Now that's a pretty good
thing. The investment in a li-
cense fee and wedding band. This
sort of subject can be discussed at
great lengths... but I won't be-
labor it. After all, I am married
myself.

Cultural Note: There is a bit of
the philosopher in all of us, and
the local forum for the Grayling
Philosophers is probably the coffee
bar at Dad Hanson's, where at any
time of the day you find hunched
over coffee cups all sorts of fas-
cinating people who will give
forth with opinions on, and rea-
sons for, everything from chess
to the city streets to the
psychology of skiing, and on to the
Platonic Concept in relationship
to deer herd control. But last Sat-
urday I got attacked with a philo-
sophical statement which utterly
peaked me. From Don Gohr, one
of the Early Morning Philo-
sophers, comes this bit, which I
have recorded for the benefit of
scientific explorers who dig into
the ruins of Grayling. "What's
good for me, works both ways." Think
upon these words, friends; they
may become immortal.

Bureau Of Budget Finally Sets Policy For Federal Land Transfer

Should Hasten Airport Into Guard Hands

Word has been received from
United States Congressman Elford
E. Cederberg by the Avalanche
that he has been advised by Mau-
rice Stams, acting Director of the
Bureau of the Budget that a policy
has finally been adopted in the
transfer of Federal lands of the
various National Guard units of
the states.
Last year, Congressman Ceder-
berg introduced House Bill 581 in
the House of Representatives and
Senator Charles E. Potter a simi-
lar bill in the Senate to transfer
the Grayling-McNamara Air Base
from Federal hands to the Michi-
gan National Guard. No action
could be taken in either house as
the Bureau of the Budget had not
established a policy.

The action was taken at the re-
quest of many local citizens who
were alarmed at the continuing ra-
pid rate of decline in the upkeep of
the big base. The Federal Govern-
ment, either would not or could
not, keep up the maintenance. The
action, though the National Guard
offered to keep the base in operat-
ing condition if it could get title
to it.

Fish Shanties Plug County Road

Ice fishermen taking their shan-
ties over Lake Margrethe have
just about plugged up one end of
the Eagle Point Road, it was said
by Bruce Carlson, Crawford County
Road Superintendent.
He pointed out that if a heavy
snow fall were to occur that the
road would probably remain par-
tially unplowed at it is impossi-
ble to get a large plow truck
turned around.
Sheriff John A. Papendick and
Carlson jointly announced that
the owners of the shanties would
have until Monday, March 24 to
move the shanties from the pres-
ent resting places or the shanties
would be destroyed due to their
being a block to movement on a
county road.

Every Member Canvass

Chairman, Allan Stevenson

April 13th to 30th

Our Spiritual Life Crusade will conclude with an Every Member Canvass for the local budget. We expect this canvass will be thorough, reaching every member. It will be conducted on a basis of real stewardship. We are not so much concerned with the amount of money to be raised as we are about the need of men and women to participate more fully in the work of the church. We shall be thinking in terms of the added service we may be able to render as a church.

How To Tell The Tourist

Editor's Note — This is the sixth and final article in a series as a follow-up on a talk given by Howard Somers, field consultant from Central Michigan College to the Grayling Business and Promotional Association.

Mr. Somers stresses the why and how of selling the tourist on your area.

Perhaps an illustrated folder for advertising.

It should be printed, contain a few, good sized photographs, and tell simply and accurately the things tourists want to know.

Where your community is. What its attractions are. When special events take place. How to get to the place.

How and from whom to get additional information.

These may be distributed through —

State tourist promotion agency. Carriers that service your community and region.

State Automobile Association and their branches.

Chamber of Commerce and tourist offices of Communities in your state and region.

On Company travel bureaus.

The first step in advertising your community is to determine from what areas you should try to attract tourists.

Most communities find that a substantial part of their tourists come from within a 500 mile radius, the odds are that they will be from within your own state or from one nearby.

You can check this by checking license plates on visiting cars, or by examining guest registers in motels, hotels and other sources.

Sell your own people first — There will be no more steam behind your tourist development program than the people of your community themselves put there.

If they're indifferent or hostile to the program and to tourists, you might as well forget the whole project.

Tourists like friendly, hospitable places, and friendliness and hospitality stem from your people.

Your brochures and press releases may lure tourists to your community — but it is your friendliness that will keep them coming.

National
Library Week
March 16-22, 1958

Awakening Americans to the rewards of reading, whether for pleasure or profit, is the aim of the first National Library Week, March 16-22.

In Michigan, in addition to community programs, demonstrations and special events planned by civic committees, the Michigan State Library will sponsor several cooperative county meetings.

This drive for a "better-read, better-informed America" is led by the American Library Association and the National Book Committee, Inc., a non-profit organization devoted to wider and wiser use of books. Major communications media supporting the drive include newspapers, magazines, radio and television.

Support is activated by an acute realization that we live in a complex and difficult time of sputniks and guided missiles, when we must be well-informed or perish. As a democratic nation we depend on knowledge as never before. As the sponsors put it, "We cannot afford a country of lazy minds; we cannot afford a nation of non-readers."

The program is endorsed by the National Education Association, the Junior Chambers of Commerce and the General Federation of Women's Clubs, among many other national organizations.

Describing the role that books can play in the survival of the free world, Saxton Bradford of United States Information Agency declared, "We are the sum total of what we read. The free world is currently losing the 'Battle of the Books'... We will need to spend the same kind of money for books that is now being spent for bullets if we are to win against a totalitarianism that can turn on money pipelines immediately, whether for books or sputniks."

Interesting Events In Grayling 23 Years Ago

INTERESTING ITEMS OF NEWS GATHERED FROM THE
FILES OF THE AVALANCHE OF 23 YEARS AGO

March 21, 1935

It was a splendid representation of the business and professional men of several northern Michigan cities in attendance at the "Charter Night" banquet and program presented by the Kiwanis Club of Grayling Wednesday night. The affair was held in the banquet room of the beautiful Michelson Memorial church. Governor Ben Dean gave a masterful address in his presentation of the charter to Grayling club. He said he had special pride in Grayling since it was the first club formed in Michigan in 1935. The Traverse City club is the sponsor of Grayling club and as a token of Kiwanian fellowship presented Grayling club with a Kiwanian going for use at its meetings. This is of bronze and nicely engraved with the names of the donors and benefactors and date of presentation. Acknowledgement of this gift was made by president C. G. Clippert.

A permanent organization will function this spring to begin beautification of the 220 mile strip of US-27 running between St. Johns and Cheboygan. Delegates from more than a score of clubs scattered along the route elected Registrar C. C. Barnes as president and Professor Myron A. Cobb as secretary, both members of the Central State Teachers college faculty. The president will be chosen from each co-operating organization. At the Tuft highway beautification conference staged March 15 in co-operation with the fourth annual conservation day at Central State, R. E. Palmer pledged the co-operation of the state highway department. He told of the proposed planting of trees along state-owned lands in co-operation with the conservation department and of plans for the development of small parks around roadside springs along US-27. The varying climatic conditions and topography need to be taken into consideration in planning, he pointed out. Professor H. Whitmore, of the University of Michigan, "whereas Norway pine and spruce might logically be planted in most of the northern part of the route, for the chick farming lands south of Clare it would perhaps be out of place. Trees, shrubbery and flowers should fit logically into their background." Grayling was represented at the meeting by Mrs. Frank Barnett, Miss Ethel Ann Kraus, Donald Charron and Sam Gust.

After long delays which have lasted for more than a year the Grayling Waterworks project officially started Monday, March 18th. August Funk, local contractor, is the first to start operations. His contract calls for drilling a test well and the two eight inch wells which will supply the water for the system. Mr. and Mrs. Earl Broadbent spent Friday in Gaylord at the home of the latter's sister, Mrs. Morell Fox. Mr. and Mrs. Albert Pochelson arrived Monday from Detroit and will spend a short time at their cabin on the North Branch. The mileage of truck trails built by CCC men from Emergency Conservation Work camps in Michigan is equal to the round-trip distance from Lansing to Jacksonville, Fla., according to the Department of Conservation. The following enjoyed the games at the state basketball tournament at Mt. Pleasant last Thursday: Coach Willard Cornell, Dr. J. F. Cook, Dr. F. E. Bearson, Miss Beatrice Freeman, Clyde Borchers, Kenneth Hosell, Lars Rasmussen, Leo Lovely, Jerome Brady, George Hanson, Edwin Chalker, LeRoy Millikin, Charles

The building owned and occupied by Mrs. Cora Stephan, on the corner of Railroad and Ogemaw Streets, was consumed by fire last Tuesday afternoon. Mrs. Ella McIntyre left Monday for a visit with friends and relatives in Bay City, Chesaning and Leslie. Mrs. Fritz Hanson is on the sick list. Born to Mr. and Mrs. Nels Larson, a girl. Mrs. William Blaine has gone to the southern part of the state. Miss Lizzie Thompson returned home to Lewiston Wednesday. Mrs. Buckholz is here visiting her son, Harry, and caring for her new granddaughter.

Frederic P. T. A. Nows The regular meeting of the Frederic PTA held Monday evening, March 10 was well attended. Raymond Dorais, Director of Aid to Dependent Children, in the county was the guest speaker. He gave a very informative talk on the subject. In an effort to help the graduating seniors finance their class trip the PTA is to sponsor a bake sale at the Donkey basketball game to be held March 28th. Proceeds will be donated to the class. An election of officers will be held at the April 14th meeting.

From where I sit... by Joe Marsh

"Sound Idea"—But—

Hap Wilson is a young fellow on our paper — and crazy about that little daughter of his. But like all of us he's learned that kids can present problems.

"Every night I have to read her the same story," he complained. "The most sugary one in the book — about Billy Bumblebee!" So I finally recorded the story on a tape recorder. Showed her how to play it whenever she wants.

"Know what she says? That it sounds fine but that she can't sit on the machine's lap!"

From where I sit, Hap had good intentions, but he has to understand his daughter's point of view, too. Many of us often make the same mistake. For instance, you may like tea, I prefer a glass of temperate beer. The important thing is that we both understand each other's point of view. There are two sides to every "story!"

Camp Pugsley Writes Thanks To Winter Sports

The following letter was received last week by William Joseph, president of Grayling Winter Sports from the director of Camp Pugsley. The boys serving their probation at Camp Pugsley had been invited to use the park during the week this past season.

Mr. William Joseph, President, Winter Sports Assn., Grayling Mercantile Company, Grayling, Michigan.

Dear Mr. Joseph:

I would like to thank you and anyone else connected with the Grayling Winter Sports Park for allowing the boys at Camp Pugsley to use your facilities for skiing. As far as the boys are concerned, the two evenings they spent at the park were occasions that they will remember for a long time. I am sure nothing we have done in the way of recreation or, for that matter, any activity, has met with such enthusiasm and enjoyment on the part of the probationers. Many of the boys are still talking about their experiences and writing of them in their letters home. I am sure that experiences such as these are constructive because they show these boys that there are ways of utilizing leisure time more profitably than most of them have in the past.

In closing, let me again thank you on behalf of the boys and members of the staff at Camp Pugsley for your very generous hospitality.

Very truly yours,
Department of Corrections,
Edward Green,
Supervisor Camp Pugsley.
